

## Photovoltaic Lighting Group.

### APPLICATION FOR SITE VISIT AND PRODUCT DEMONSTRATION

#### WHAT IS A PRODUCT DEMONSTRATION

With our demonstration trailer we now offer night appointments to allow you to see our lights in action at your location. The trailer includes our 25 watt and 60 watt UltraLux LED Street Lights and our 20 watt and 50 watt EcoLux LED Flood Lights. This session shows the light quality and distribution while also allowing your staff members and the local community to see how the lights operate.

#### The appointment provides

- **Education of our lighting design:** An understanding of how LED's and solar power can provide a standalone solar lighting system.
- **Site Assessment:** Working with you on your project. We look at lighting requirements and new lighting designs that work with existing lights in the area.
